

Safetree Contractor Certification

The forestry sector is committed to supporting contractors to become Safetree certified.

Safetree Contractor Certification (SCC) demonstrates your professionalism, benchmarks health and safety systems, and provides an assurance for companies that you want to work with, that you are competent to do the job.

This workshop is an introduction and a step by step guide to signing up to Safetree Contractor Certification. This is an ideal time to find out more and start the process. It is also a great taster of what is part of the Safetree leadership training that has been developed by the Learning Wave.

Workshop schedule

12noon	Welcome Fiona Ewing, FISC
12.10pm	FICA Update Prue Younger, FICA
12.25pm	Qualification Update Mark Preece, Competenz
